ORGANIZATION

# Preadmission Screening & Resident Review (PASRR)

## PASRR Level I

Identify possible SMI and/or ID/RC prior to admission and upon significant change in condition within Medicaid-certified Nursing Facility (NF).

## PASRR Level II Evaluation

Level I review for categorical admissions. Face-to-face assessment to confirm presence of SMI/ID/RC and assess the need for NF level of care and/or specialized services.

## PASRR Level II Determination

Notify individuals and providers of the results and include recommendations for NF care plans. Document and follow specialized services recommendations.

# Stakeholder Collaboration and Communication

---

- Acentra Health's objective is to assure understanding and open communication regarding program changes to allow for successful navigation of the Kansas PASRR process in support of statewide compliance and in alignment with state goals.
- PASRR is intended to ensure that Medicaid-certified NF applicants and residents with possible serious mental illness (SMI), intellectual disabilities (ID), or related conditions (RC), are identified and evaluated for the need for nursing facility level of services and other specialized services.
